

Quality Policy

The management of SMSA is committed to continually improve the company's performance and meeting its customers' expectations while offering them a safe, efficient, and professional service.

SMSA is professed to being the leading provider of logistics, supply chain and transportation solutions. SMSA provides these services aligned with internationally recognized "Good Distribution Practices" and shall optimize its clients' benefits by providing them with state-of-the-art-support.

Quality is considered to be a personal responsibility for all our employees at SMSA. To preserve it, the senior management shall provide required support and training to ensure effectiveness of the company operations and systematically mitigate associated risks.

In addition, SMSA creates a working environment conducive for enabled, satisfied, motivated, and committed employees making SMSA "The Employer of Choice".
