

Overview	To orient all personnel on the procedures done for MPS Scanning in CORE
Person Affected	All Personnel who are using CORE Trackers
Instructions	Please refer below

MPS Scanning in Core Tracker

The following steps to be followed to link the mps barcode with Master AWB.

1. Attach the SMSA AWB on the Master Piece. The master piece will become package No. 1

2. Attach/Stick the bar-coded MPS stickers on all other pieces/packages.

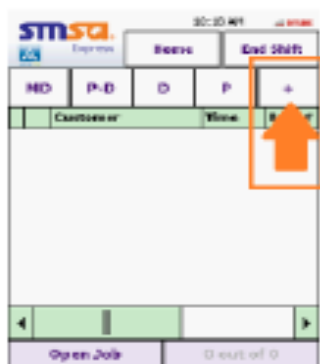

Start the piece count as 2 of Total pcs ; 3 of Total pcs and so on...
Peel-off stickers from each mps to be stick with the master

3. Click on Pickup & Delivery in the tracker.

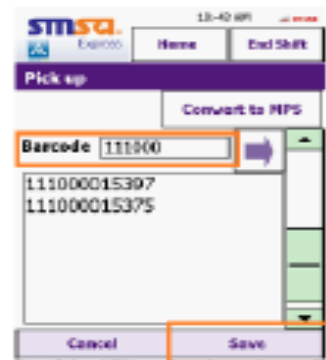

4. In Pickup & Delivery screen click on + sign.

5. Click on "Convert to MPS"

6. Scan the Master AWB first, then scan all the MPS barcodes one by one in the sequence No. Press "Save" after completing the scanning.

You can track/check the mps tracking numbers by clicking number of Pieces in Track Details screen in Core.
